

# TRIDENTUM

MALVASIA

## NEW TERRACOTTA CLAY ROOF TILES

**Six different textures and colors** of tiles to maintain the aesthetic tradition of classic Mediterranean and Tuscan roof tops. Thanks to new cutting-edge industrial technologies, faithfully respecting all architectural traditions, these tiles offer maximum quality, resistance and guarantee to preserve their beauty and value overtime at an affordable price. The quality of these tiles commences with a careful selection and mixing of the best clays, tested in well-equipped laboratory. A process of production under total electronic control and a lengthy firing in modern kilns guarantee the highest standards of quality. The resulting properties are: high mechanical and bending strength and resistance to frost, low permeability meeting all certification and properties regarding UNI EN 538-539 standards.

VERNACCIA

# SIX COLORS

To respond to the needs of different tastes and traditions

Chianti

Galestro

Riserva

**CHIANTI**, in a warm natural red color derived from the character of fine Tuscan clay, it brings the roofs of our regions to life.

**GALESTRO**, a pale, rosy color, it recalls the soft and mellow tones of the Tuscan countryside.

**RISERVA**, aged red tiles that mimic perfectly the effects of time on the surface. They represent the ideal solution for a restoration characterized by an intense coloring.

**VERNACCIA**, the blend of pale clays and slips creates mellow shades and hues in a perfect harmony of the past and present.

**MALVASIA**, in the typical yellow color of Mediterranean roofs, presents pleasing contrasts, harmonious combinations and the appeal of the ancient products.

**SANGIOVESE**, the greenish weathering, found in this line, mimics the moss formed over time on the old countryside farmhouses.

Vernaccia

Malvasia

SanGiovese

**A custom blend of 40% Vernaccia, 40% Riserva and 20% SanGiovese**

**Vernaccia**

**Malvasia**
